. . . Future Years

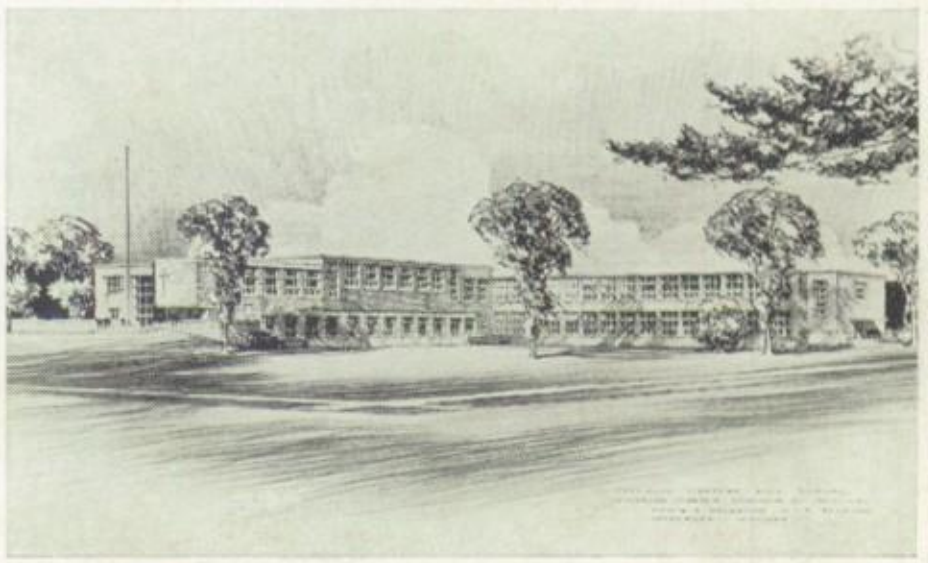
New Horizons!

Most Reverend Bishop Francis J. Haas of Grand Rapids breaks ground, May, 1951, for the Muskegon Catholic Central High School. At his left is Right Reverend Monsignor Robert Bogg, Chancellor of the diocese; right is Right Reverend Monsignor Anthony Arszulowicz, vice-chancellor.

Muskegon pastors, teachers, students, friends, and civic leaders participated in this event so momentous in the history of Catholic education in Muskegon.

Catholic Central - 1953

At the right is the architect's design of Muskegon Catholic Central. Steadily the building progresses, and by September 1953, our dream of a bigger and better High School will become a reality.



Class of 1952 . . .

You, the Class of 1952, have the distinct honor of the Silver Jubilee Class of St. Jean's High School. You follow a long line of classes which have distinguished themselves in loyalty and service to their Country, to their Church and to their God. This is the inheritance, grand and sublime as it is, left by your predecessors as you, the Class of 1952, set out on the voyage of life. May you carry on the beautiful traditions of the classes which have gone on before you in putting into practice the religious and moral principles taught you at St. Jean.

Love Mary, your heavenly Mother, with a tender and filial love. A child of Mary cannot perish.

May God have you in His holy keeping.

We Are Grateful . . .

Our deep gratitude goes to you, our dear parents, the miners who have done the most to prepare the ore for the mint. May the impression made by your sacrifices and prayers and good example produce coinage acceptable in the eternal realm of Christ.

Salutatory

RITA FEUERBORN

Greetings to our parents, our pastors, our teachers and to all who have aided us in making our school days a pleasure and a success. Graduation marks a great milestone in our lives. Through it we are introduced to a new world.

Today we relinquish the guiding hand of our teachers, the Sisters of Mercy, who have given us a complete Christian education, as well as a preview of what we are to expect in the future.

We feel honored to be the Silver Jubilee Class — followers of illustrious groups who have played important roles in the drama of progress during the last twenty-five years.

While we salute the past and its achievements, we look to the future for opportunities for service, leadership and character development.

— Rita Feuerborn

Valedictory

We have spent twelve years in school acquiring knowledge and developing our character. During our school life it has been our duty to strive for efficiency under the guidance of our instructors. It is now the time to go out into the world where our advancement depends largely upon our individual efforts. While we may achieve fame, the all-important attainment is Christian character.

Our parents and teachers have sacrificed for us. They have emphasized that for the Christian student, the model of character is Christ. Now, as we assume greater responsibilities, we recall with deep gratitude those who prepared us for our future obligations.

So we say "thank you" for everything. We shall try to make ourselves worthy of the kindness and assistance lavished upon us. We shall use our knowledge and training to fulfill worthily that position awaiting us in the world today, where we must **"Build for Character not for Fame."**

Minting Time . . .

During the Silver Years boys and girls have been received from the rich mines of Catholic homes and brought into the mint of Catholic output.

Here were organized pursuits of academic studies, the opportunity to cooperate in group activities, and occasions for intelligent leadership participation has prepared them for Christian social living.

A constant array of accomplishments reaches from the day of the first Commencement in 1928 to the present time . . . The Class of 1952 goes forth confidently despite the uncertain conditions because of a definite emphasis on social living, and the opportunity for intelligent leadership during the **Minting Time.**
